

Gelato Base Guide

The six ingredients of the Gellatti gelato base, matched to a product in each of 75 countries.

Milk
Skim milk powder
Dextrose

Cream
Sugar
Tara gum

START HERE

How to use this guide

1 Find your country

Open the index on page 4 and tap your country, or use your PDF viewer's bookmarks.

2 Check the six base ingredients

Your country page shows the product Gellatti identified for each ingredient, with the brand, the pack size and the barcode where the product has one.

3 Buy the listed product

Match the barcode, or the exact name and pack. The links show where Gellatti found each product.

TAGS ON THE COUNTRY PAGES

FROM ABROAD The shop Gellatti found is outside your country. Delivery, duties and costs to your address are not confirmed, so check with the seller before you order.

B2B Sold to businesses through distributors. Pack size and price on request.

Then let Gellatti do the maths: the app turns these six ingredients into a base for your machine and your batch size. gellatti.com

THE BASE

The six base ingredients

The Gellatti gelato base is built from six ingredients. This is what each one does, and what to check when you buy it.

Whole milk about 3.5% fat

The body of the base: water, milk protein and lactose.

BUY Whole milk. Where 3.5% is not sold, your page lists the closest documented product and its fat content.

Cream about 30% fat

Adds fat for a rich, creamy texture.

BUY Dairy cream with no added sugar and no vegetable fat. Your page shows its fat content.

Skim milk powder very low fat

Adds milk solids without extra water, for body and a smoother scoop.

BUY Pure skim milk powder, not a coffee creamer or whitener.

Sugar sucrose

Sweetness, and softness in the freezer.

BUY Any brand of white sugar. The ingredients should list only sugar.

Dextrose glucose monohydrate

Less sweet than sugar, and it helps keep the gelato scoopable.

BUY Dextrose powder, not tablets, syrups or blends.

Tara gum E417

A plant-based stabiliser, used in very small amounts.

BUY Pure tara gum. It needs heat: mix it with the dry ingredients, then heat the base to 75–80 °C.

NOTES

Good to know

From abroad

The shop Gellatti found for this product is outside your country. Delivery, duties, costs and timing to your address were not confirmed. Check with the seller before you order.

United States – tara gum

TIC Pretested® Tara Gum 100 (TIC Gums / Ingredion, product no. 38930903) is sold to businesses through distributors such as Essex Food Ingredients (item 1191099); pack size and price are on request. The supplier's documentation describes it as self-affirmed GRAS. That is the supplier's own statement, not an FDA approval.

Fat content

Where a country does not sell the reference fat level (3.5% milk, 30% cream), the guide lists the closest documented product and shows its actual fat content.

Labels change

Manufacturers change recipes, packs and barcodes. Always check the label before you buy.

What this guide covers

The six base ingredients of the Gellatti gelato base, in 75 countries. It does not list every ingredient used in Gellatti recipes.

Compiled from manufacturer and retailer information, September 2026. Links show where each product was found; prices, stock and delivery are not guaranteed. Gellatti is not affiliated with the brands shown, and product names and trademarks belong to their owners. This guide is not regulatory advice; local food rules apply.

gellatti

Now make it.

Gellatti turns your six base ingredients into a gelato base for your machine and your batch size.

Open Gellatti ↗
